

Healthy and happy is the goal

We live a busy life, full of stress and tension... Often our body sends us signals through the pain..

Helping our body to rehabilitate itself would be great, wouldn't it?

QUANTUM TOUCH OF HEALTH

Introduction

In 2004, the U.S. government rated THz Technology as one of the "Top Ten Technologies That Will Change the World in the Future". Germany, Switzerland, . Russia, Japan, South Korea and many other countries put the development of terahertz technology in an important position in their national strategy.

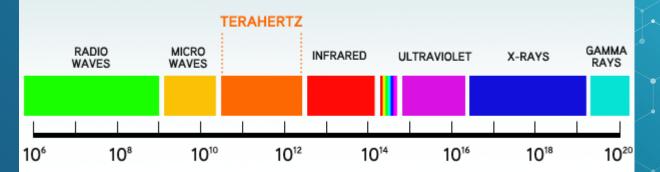

A breakthrough in the study of Chinnese terahertz

The security-checked **Safety** terahertz wave is absolutely safe for the human body!

Terahertz

Terahertz Waves

The terahertz spectral region (40GHz to 4THz or 7.5mm to 75µm) sits between microwaves and the far infrared

Terahertz frequency is non-ionizing, meaning it doesn't cause harm like ionizing radiation. Ionizing radiation has a higher frequency and shorter wavelength than non-ionizing radiation, and can be a serious health hazard: exposure to it can cause burns, radiation sickness, many kinds of cancer, and genetic damage. Non-ionizing terahertz frequency is safe as opposed to ionizing radiation/frequency.

FACTS

"If you want to find the secrets of the universe, think in terms of energy, frequency, and vibration." -Nikola Tesla "If there's a way to heat the bones, then all diseases can be treated." — Hippocrates "Water is the driving force of all nature." - Leonardo da Vinci

In the production process we we have additionally implemented a special spectrum of quartz terahertz frequency with an enhanced effects in all Qtelos devices. With this sophisticated technological addition, the Qtelos devices are unique in the market of devices that use terahertz technology with the aim of cell therapy

№ DO2003028

Product principle

Co-frequency resonance

The frequency of terahertz and good cells are at the same frequency and resonate at the same frequency, so they can activate and repair cells. Good cells will absorb the energy of terahertz waves when encountering terahertz and pass through at a constant temperature. If the body part is blocked, or there are bad cells, mutated cells It will heat up

Safe absorption

Terahertz is a band between microwave and infrared. It is not as strong as infrared. It is only 1/40 of the sunlight. 40 hours of exposure to the body is equivalent to one hour of sun exposure, which is safer than sur exposure. It can be used by eyes and children.

Quantum mechanics

Terahertz wave combined with quantum technology has strong penetrability, can penetrate 20-30 cm of the human body, and directly act on the viscera. The activated cells do not activate the epidermal cells, but activate the viscera, muscles, and epidermal cells, which activate and repair layer by layer. Expelling cold and dampness is not the surface, but the cold and dampness of the viscera, bone marrow, and epidermis.

Q-ONE Intelligent Recognition

Accurately identify good and bad cells in the human body. Resonate with good cells at the same frequency, play the role of activation and repair the cell blocked when passing through damaged cells; During the process of breaking through the obstacles, the energy will instantly increase, the body will heat up and become hot, allowing the damaged cells to be repaired quickly, and at the same time blasting to kill the mutant cells.

The efficacy of terahertz cell therapy

- Relieve all kinds of pain caused by muscle stiffness and strain
- Frozen shoulder, cervical spondylosis, lumbar muscle strain, osteoarthritis
- Eliminate fatigue and improve sleep
- Dowager's hump,forward head posture varicose veins, accessory breasts and other stasis
- -Skin problems such as eczema, mosquito bites, itching, etc.
- Strengthen metabolism and improve microcirculation
- Inflammation such as prostatitis and mastitis
 cold womb ,stomach cold gastrointestinal
 weakness damp-cold syndrome
 encourages the organism to fight against health
 imbalances
- stimulates acupuncture points

Benefits for women

-has immediate effects on weight loss, -keep beauty, -helps reduce wrinkles on the face -lack of qi and blood, -cold uterus, -cold both hands and feet, -uterine toxins, -uterine fibroids, -gynecological inflammation -irregular menstruati -premature amenorrhea etc

Get your O-ONE and do your health a favor

General disclaimer:

The device is a certified household electrical equipment. It has been certified as "safe to use", it emits no harmful radiation and it has labels allowing for its distribution internationally. Safe and effective for all ages.

<u>QTELOS device is not a medical equipment and the manufacturer provides no</u> <u>medical advice.</u> Users understand that the device is not intended to be used as a medical device or for diagnostic purposes on which reliance should be placed. It's use is not intended to be relied upon in lieu of medical treatment or advice by a trained medical care provider. Users understand that they use the QTELOS at their own risk.

Always consult your doctor or other healthcare professional with any questions regarding any medical condition, or for specific guidance regarding the optimal use of the QTELOS device, nutrition or physical activity. This product is not intended to diagnose, treat, cure, or prevent any disease. Please consult your healthcare provider.

Disclaimer: First time users might experience pain, itchiness, constipation, light fever, blisters/crystals, depending on your body. These are normal effects.
